Авоит

Full-stack developer with a passion for design and art.

Looking for a full-time engineering job starting in 2017 summer.

EDUCATION

Cornell Tech, New York, NY

2015-present

M.S. in Information Systems, Connective Media with Merit Scholarship

Selected Courses: Full Stack Web Development, Applied Machine Learning, Future Interaction Technologies, Master Thesis (on Autonomous Vehicles).

Peking University, Beijing, China

2011-2015

B.S. in Computer Science with Honors and Scholarships

Received 2014 Google China Anita Borg Scholarship

Selected Courses: Computer Networks (Honor Track), Operating Systems (Honor Track), Compilers, Web Software Technology, Human-Computer Interaction.

Peking University, Beijing, China

2012 - 2015

B.S. in Psychology (Double Major)

Selected Courses: Social Psychology, Cognitive Psychology, Experimental Psychology.

EMPLOYMENT

Airbnb, San Francisco, CA

2016

Software Engineering Intern (React, Flux, Ruby on Rails)

Full-stack development for the list-your-space flow for hosts. Owned four experiments in total. Brought online photo editing feature to Airbnb hosts from scratch.

Rhizome at the New Museum, New York, NY

2016

Design Intern (Sketch, user study, prototyping)

Worked as part of the webrecorder team to help preserve highly dynamic digital art on the Web. Mainly worked on visual branding. Conducted user study and helped iterating UX design.

Baidu Research, Beijing, China

2015

Design Research Intern (OpenCV on Android, prototyping)

Worked for the Human-Computer Interaction team at Baidu Institute of Deep-Learning.

Designed and built a high-fidelity prototype with natural user interfaces on tablets for a smart home hardware.

Google, Mountain View, CA

2014

Software Engineering Intern (Google Web Toolkit, Android)

Implemented a new ads feature which enables advertisers to copy multiple ads asynchronously from existing ad groups directly from a table.

Prototyped an Android app which scans a QR code on Google AdWords website and displays multiple mobile ads on app.

PROJECTS

BriskIT (Web application | React, Node.js)

2015

BriskIT allows users to get IT help whenever and wherever their tech breaks down.

Responsible for full-stack development and UI/UX design.

See the demo on http://briskit.herokuapp.com

2D Barcode Redesign (OpenCV on desktop and Android)

2013-2014

Collaborated with Microsoft Research Asia and Yale University. Created a redesign of scalable 2D barcode for wireless visual communication.

Paper accepted by ACM MobiCom 2014 (Acceptance Rate 16.4%).

SKILLS

JavaScript (React + Flux), Java, Ruby on Rails, Python, C++, HTML5 + CSS3. UX design, visual design. Prototyping, user study.

Interests

Illustrating, fashion (Spent a summer at Parsons learning fashion).

Indie music. Tai-chi (Certified National Athlete).
